## SKILLS

Object Oriented Programming

Python programming

Front end development

## LANGUAGES

Python

C++

C

## INTERESTS

Web Development

Cyber Security

Operating System

## EDUCATION

### MSc Cyber Security

PSG College of Technology

08/2020 - Present

CGPA - 6.91

### XII (Higher Secondary)

Green Garden Matric Higher Secondary School

06/2018 - 03/2020

89%

## PROJECTS

### Chat application

- Developed using **ReactJS**. It is an interactive chat application. Users can use their login credentials to login which was created using **chat engine**. Users can chat with individuals or they can create groups for chatting.

### Meme World

- Meme World is an **Android app** developed using **Android Studio Java** for sharing memes in any platform. It generates different memes and not repeated. You can share meme using any of the social media platform and it is sent as an image.

### Food cart

- Developed using **HTML, CSS, JavaScript**. Users can order their food using this website. They can check their total cost of ordering. Where all the cookie information is stored in local storage.

### Video player

- Developed using **Java Spring boot**. It is a web-based player used to play video on the web similar to a normal video player. You can download the video, change playback speed and picture in picture mode. And you track the range of the bytes being transferred.

### E-commerce bookstore

- Developed using **Flask** and **PostgreSQL** where users can create an account and login to the website to purchase books or add them to cart

## ACHIEVEMENTS

### PSG Hackathon

*TheRootCause - a web application built with Streamlit, which allows users to learn about a city's or town's crime history and receive a forecasted crime report, with additional features for female users.*

### Declamation

*A skill where there is already a speech delivered in public and you perform an excerpt of the speech.*
